

# Chetwynd Road/York Rise junction

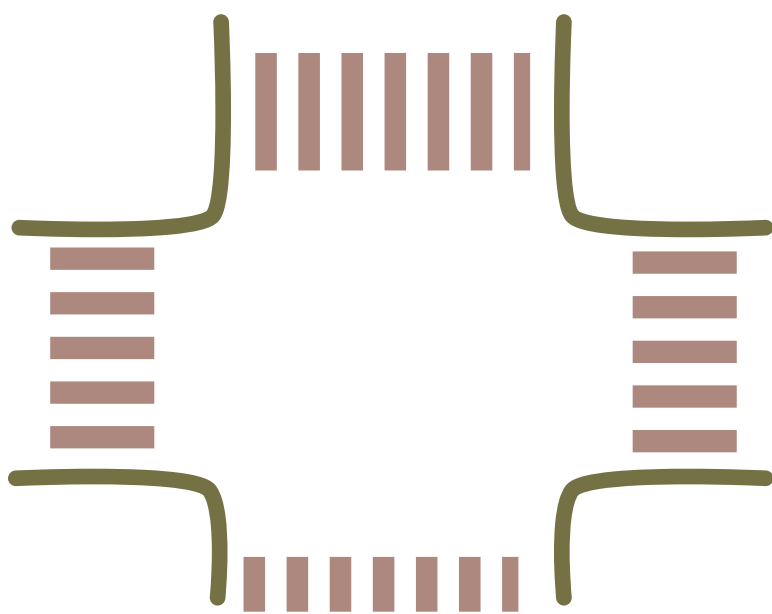

Consultation shows that people like the new 20mph speed limit for the area, but were concerned it wasn't being followed by all vehicles.

Traffic and speed can be a problem at this junction.

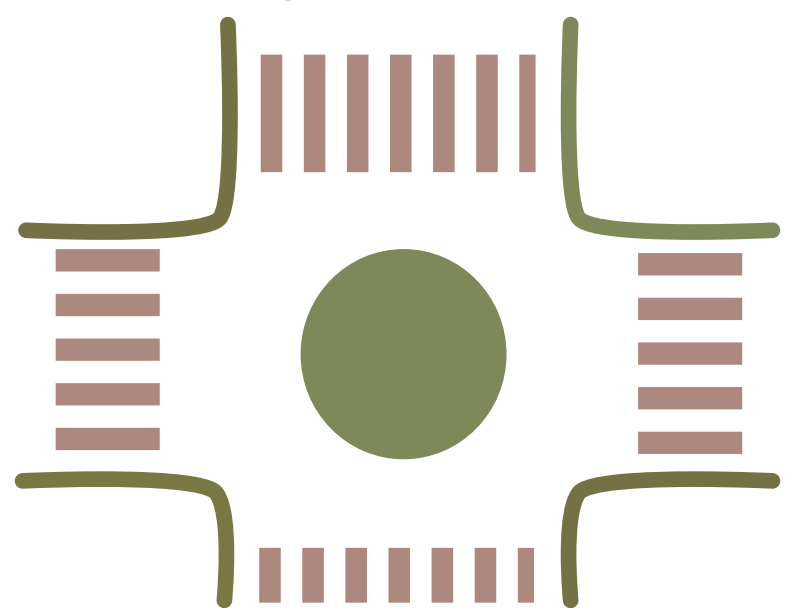

At 20mph a traffic-light junction isn't required on this residential street, so we have a chance to ask for a new way of doing things here.

Options might include:

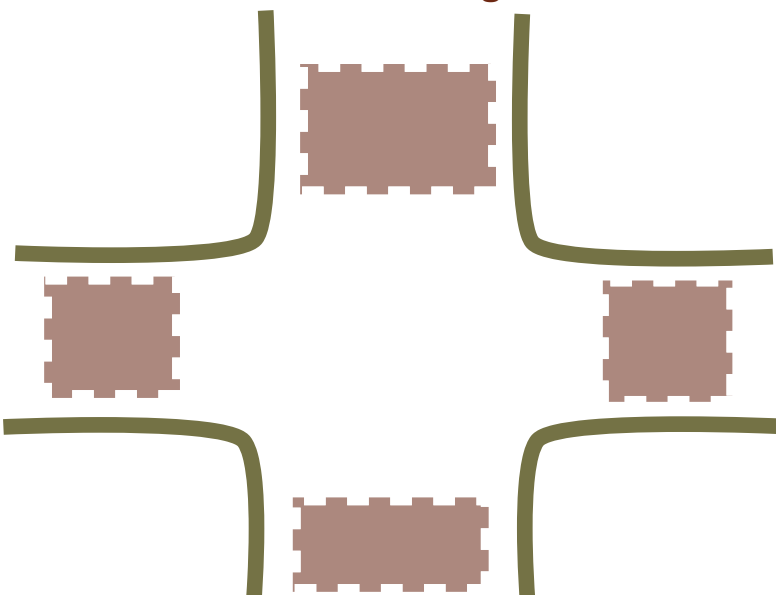

**A simple CROSSROADS with zebra crossings**

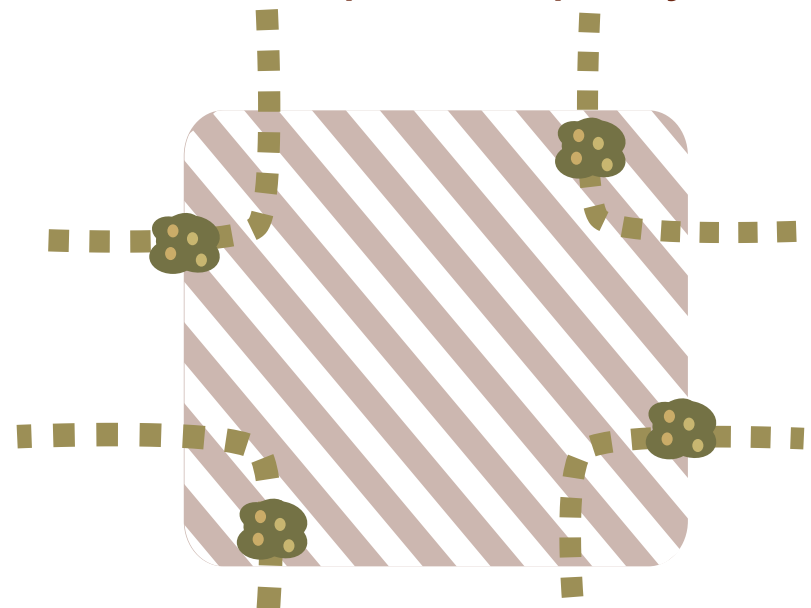

**A MINI-ROUNABOUT with zebra crossings**

**WIDER FOOTPATHS to slow traffic with non-zebra raised crossing areas**

**A SHARED SPACE area with low-key boundaries and pedestrian priority**

**What do you think is needed?  
Do you have other ideas? Let us know.....**

**Fill out a consultation sheet  
HAVE YOUR SAY..... LET US KNOW WHAT YOU WANT?**
